Attachment : Flyer EVOSD 2.1. Summer Course Program 2021
Subject : Invitation to attend the Eco Vocational School for Sustainable Development
(EVOSD) 2.1. Summer Course Program 2021

Dear President
Rajamangala University of Technology Thanyaburi (RMUTT)
Thailand

On behalf of the EVOSD 2.1 Summer Course Program 2021 organizing committee, we would like to extend our warmest invitation to you to participate in the Eco Vocational School for Sustainable Development (EVOSD) 2.1. Summer Course Program 2021. This event will be held from 9th September – 7th November 2021 via Zoom Platform. It is organized by the Faculty of Technology and Vocational Education Universitas Pendidikan Indonesia in collaboration with the Directorate of International Affairs (DIA) UPI, the ASEAN Symposium for Science, Engineering, Economics, and Education (ASSEEE), and the Regional Association for Vocational and Technical Education in Asia (RAVTE).

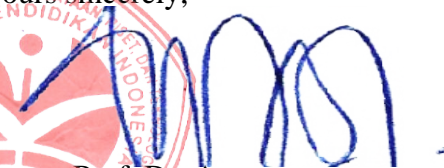

This activity's primary purpose is to gather students from Asia to explore the development of apprenticeship trends, how to deal with industry 4.0., and the role of vocational eco-school in sustainable development. The participants will also gain knowledge and experience in writing scientific articles in our publication workshop.

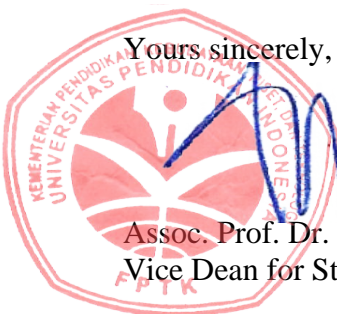

Therefore, we would like to invite two (2) students from your university to participate in this event. Please kindly fill in the application form: <https://bit.ly/EVOSDSCP>, and we would be highly grateful if you could respond to this invitation no later than 2nd September 2021. We look forward to hearing from you soon.

Should you have any questions or need further information, please do not hesitate to contact the Program Secretary, Nenden Rani Rinekasari, S.P., M.Pd. (+62 812-2099-340) or Irwan Gunadi, S.Pd. (+62 812-9291-0181) or via email: fptk@upi.edu.

We look forward to your participation.
Thank you.

Yours sincerely,

Assoc. Prof. Dr. Ana
Vice Dean for Student Affairs/Chairman of the Committee

EVOSD 2.1 SUMMER COURSE PROGRAM 2021

EVOSD 2.1
SUMMER COURSE PROGRAM 2021

Eco Vocational School for Sustainable Development (EVOSD)
in 4.0 industrial revolution

Course Description

The Covid pandemic has had an even more significant impact on the development of internet-based activities. Summer course programs can be organized easily through easy-to-use and affordable platforms. The organizer of the EVOSD 2.1 Summer Course Program 2021 is the Faculty of Technology and Vocational Education of UPI, in collaboration with the Directorate of International Affairs (DIA) UPI and the ASEAN Symposium for Science, Engineering, Economics, and Education (ASSEEE), and RAVTE. Participants from various countries can take part in this activity and get many benefits.

This activity's primary purpose is to gather students from Asia to know the development of apprenticeship trends, how to deal with industry 4.0, and the role of vocational eco-school in sustainable development. This activity achieves the following goals:

- 1) Development of a global atmosphere (internationalization).
- 2) Improved UPI branding
- 3) Improving the reputation of UPI graduates from the perspective of an employer (employer reputation).
- 4) Improving the quality of research, publications, citations, and reputation of UPI researchers at the national and international levels (academic reputation).

This summer course program will provide participants with knowledge and experience in writing scientific articles.

Method and Output

- Online workshop in English,
- Virtual trip,
- Activities: materials delivery, group discussion, Q&A, and manuscript coaching
- Assignment: Resumes, Manuscripts for UPI International Journal, Group presentation, Poster Competitions, Talent shows
- Other outputs: conversion credits, transcript, e-certificate, publication at the end of program.

Learning Achievement

- 1) Adding insight and improving skills in writing scientific articles,
- 2) Publishing articles in International Journals,
- 3) Developing Vocational School development concept with sustainable development approach.

Research and Publication Workshop :

Dr.Eng. Asep Bayu Dani Nandiyanto, S.T., M.Eng

Vocational High Schools in Bandung (SMKN 5 & SMKN 7)

In 2018, secondary public vocational school (i.e. SMKN 5 and SMKN 7 Bandung) got Adiwiyata Mandiri 2018 Award from the Minister of the Environment Life and Forestry and the Minister of Education and Culture as the best school for giving individuals responsible for life's environment, including several aspects in the policy, the curriculum, the management of facilities as well as infrastructure, and the activities of students in the school.

The Vision of SMKN 5 is to be the best vocational school in Indonesia with innovative, modern and caring. Mission of SMKN 5 is to maintain and support sustainable development and to develop policies of education nationally. The curriculum of the school has paradigm in environmental living and sustainability. The goals of education are to support sustainable development, to optimize the infrastructure-based Technology Information, to do conducive and insightful environment, and to increase cooperation with the world of businesses, industries, and institutions in national and international

EVOSD 2.1 SUMMER COURSE PROGRAM 2021

The vision of SMKN 7 Bandung is religious, discipline, inspiring, creative, innovative, and insightful environment. The mission is to support sustainable development, including protecting, preserving, and managing environment.

MUSEUM PENDIDIKAN NASIONAL UPI

The National Education Museum Universitas Pendidikan Indonesia (UPI) was inaugurated by the Governor of West Java, H. Ahmad Heryawan, Lc. The construction of the National Education Museum is a form of UPI's responsibility as a university concerned about preserving the nation's cultural-historical heritage, especially in education. Museums generally exhibit collectibles from the past, but this is different from the National Education Museum UPI. This museum presents how education will be in the future because currently, education is forecasting.

The existence of the National Education Museum is expected to be able to become a vehicle for research centers, as well as learning media and learning resources. It can increase the competence of educators and learner insight in seeking to improve the quality of education and become a cultural tourism destination in West Java and National. Because basically, humans do not study the past but the future. This museum is one of the resources for visitors to be able to see the collection and be able to do something and various experiences, as well as to buy something as a keepsake. The National Education Museum, Universitas Pendidikan Indonesia, records the history of national education through "Leading and Outstanding" conservation, education and research, and recreation efforts.

PSM UPI

UPI Student Choir or Paduan Suara Mahasiswa (PSM) UPI is one of the UKM that is engaged in singing at the University level. PSM focus on developing students' interests and talents, especially in the field of singing. UPI PSM does not only appear in their internal campus. Apart from that, they also spread their wings to show off their teeth outside their campus. Some of the places they have visited include the University of Indonesia (UI) campus in Depok, Bali, Jambi, and even performed in Vietnam. As an identity, PSM UPI focuses more on folk songs. For example, Lir Ilir (Java), Bulu (Sunda), Janger (Bali), and others. This folk song is indirectly to preserve the culture of every region in Indonesia.

UPI PSM Won 3 Titles at the First Rhapsodie Indonesia Choir Festival; they won a gold medal in the Folklore category. Second, winning the Grand Prix Winner title, and third getting a promising conductor. For this achievement, PSM is entitled to a ticket to participate in the 2019 Rhapsodie Indonesia Choir Festival Grand Prix, held in Bali. Other achievements by UPI PSM include the title of 2nd Winner in the 9th National Folklore Festival, Golden Diploma Level 3 in the Folklore category at the 4th Vietnam International Choir Competition, and others.

KABUMI UPI

Initially, Kabumi, a Sundanese arts activity unit, was intended for all members of the Bandung IKIP extended family, so it was called "Keluarga Besar Bumi Siliwangi," and consisted of lecturers, staff, and IKIP family members. In 1998, Kabumi UPI was registered as part of the Technical Implementation Unit (UPT) of UPI Culture.

Following the UPI Rector's policy in 2011, Kabumi was designated as a Student Activity Unit (UKM) so that automatic membership was only for UPI students.

Kabumi's achievements in the country are numerous, including Participating in the "Bandung Martial Art Fest" event at Taman Ganesha Bandung in October 2010. The initiator and committee of "Angklung are The Music Of My Country" involving 2010 angklung players to revitalize the inauguration of angklung by UNESCO as an intangible cultural heritage belonging to Indonesia in Monju in November; They participate in various activities held on the UPI Campus, whether the Student Association event at the Department level or events held by the UPI Student Activity Unit (UKM). It's no wonder that this UKM that has existed for a long time still exists until now, both on campus, nationally, and even abroad.

BANDUNG TOURISM

In the two decades past, Bandung had grown into a town of pleasure with various objects tourists draw (<https://www.merdeka.com/gaya/tem-pat-wisata-di-bandung-klm.html>). From nature tourism to multiple types of culinary tourism. Some examples of natural attractions that can be visited are:

Kawah Putih

Kawah Putih is a point of travel in Jawa Barat situated in the village of Natural Endah, District of Rancabali, Regency Bandung Jawa Barat, located at the foot of Mount Patuha. Crater white is a lake formed from the eruption of Mount Patuha.

Sanghyang Heuleut

Bandung is also known as a desirable tourist destination. There are not only natural or artificial

tourism that is a favorite. You can also see a variety of culinary tours that are no less delicious.

This flat yellow noodle is equipped with kiki pieces, sum sum, celery leaves, and fried onions.

Suitable for diet, karedok contains vegetables such as bean sprouts, cabbage, long beans, and cucumber. The peanut sauce is very delicious.
